Completed Feb 2026 · GPA 3.77

UT Austin McCombs
AI & Machine Learning Postgraduate Certificate · In progress

The University of Texas at Austin
B.A., International Relations

SUMMARY

I build sports intelligence products where the **data layer**, the **interface**, and the **business case** all have to hold up at the same time. Through Blaze Sports Intel, I build real-time scoreboards, dashboards, predictive experiences, research products, and premium data deliverables that turn raw feeds into usable baseball-first insight. My background in consultative selling and performance reporting keeps the work grounded in real users and actual commercial needs.

• REAL-TIME SCOREBOARDS • STANDINGS & DASHBOARDS • PREDICTIVE MODELING
• API & EXPORT PRODUCTS • COACH-FACING TOOLS

EXPERIENCE

Founder & Builder BLAZE SPORTS INTEL — San Antonio, TX · 2023 – Present

- Built and operate a production sports analytics platform spanning MLB, college baseball, NFL, NCAA football, and NBA, with baseball as the core editorial and product focus.
- Architected the platform on Cloudflare Workers, Hono, D1, KV, and R2, pairing mobile-first delivery with disciplined cost and reliability decisions.
- Shipped live scoreboards, standings, dashboards, research workflows, and coach-facing tools using official and partner data sources.
- Developed predictive experiences and packaged premium access through APIs, custom exports, and partner-ready deliverables.

Advertising Account Executive SPECTRUM REACH — Austin, TX · Nov 2022 – Present

- Build data-informed advertising strategies across linear TV, OTT/CTV, streaming, and digital channels for local and regional clients.
- Translate campaign performance into retention, renewal, and upsell narratives by linking media results to commercial outcomes.
- Coordinate planning, launch execution, and post-campaign reporting for multi-channel client programs.

Financial Representative NORTHWESTERN MUTUAL — Austin, TX · Dec 2020 – Aug 2022

- Led structured discovery, needs analysis, and financial modeling work that helped clients make better long-range planning decisions.
- Earned top-10% national performance recognition and converted from internship to full-time role.
